

PICK2PALLET™ LED LIGHT SYSTEM

INCREASE LOW-LEVEL PICKING SPEED AND ACCURACY

With high operator turnover, inexperienced labor, increasing SKU numbers, and faster fulfillment times, pick errors are at an all time high.

By utilizing Raymond's industry-exclusive Pick2Pallet LED Light System, facilities can minimize picking errors, maximize productivity, improve fulfillment times, and enhance operator training.

The LED light system reinforces correct product placement in batch-picking applications by illuminating LED lights embedded in the forks under the A, B, C or D pallet position.

"We heavily rely on the Raymond Pick2Pallet LED Light System to assist in training new pickers and seasonal help. Without the Raymond Pick2Pallet LED Light System we would experience numerous misspiced pallets during these periods."

- Koerner Distributor (a leading Beverage Distributor)

ENHANCE OPERATOR TRAINING

IN LOW-LEVEL BATCH PICKING APPLICATIONS, ONE CUSTOMER HAS EXPERIENCED AN ESTIMATED

20% PRODUCTIVITY INCREASE 

&

35% REDUCTION  IN PICK ERRORS

A FLEXIBLE SOLUTION TO SUIT YOUR FACILITY AND WORKFLOW

The Pick2Pallet LED Light System is compatible with barcode scanning and voice-directed systems for ease of implementation into your facility.

BARCODE SCANNING SYSTEMS

Barcode scanning option is implemented with a cost-effective, user-friendly middleware link and integration services.

VOICE-DIRECTED SYSTEMS

Voice-directed option is brand agnostic and compatible with any voice-directed system.

RAYMOND

A PERSONALIZED APPROACH— FROM CONSULTATION TO INTEGRATION

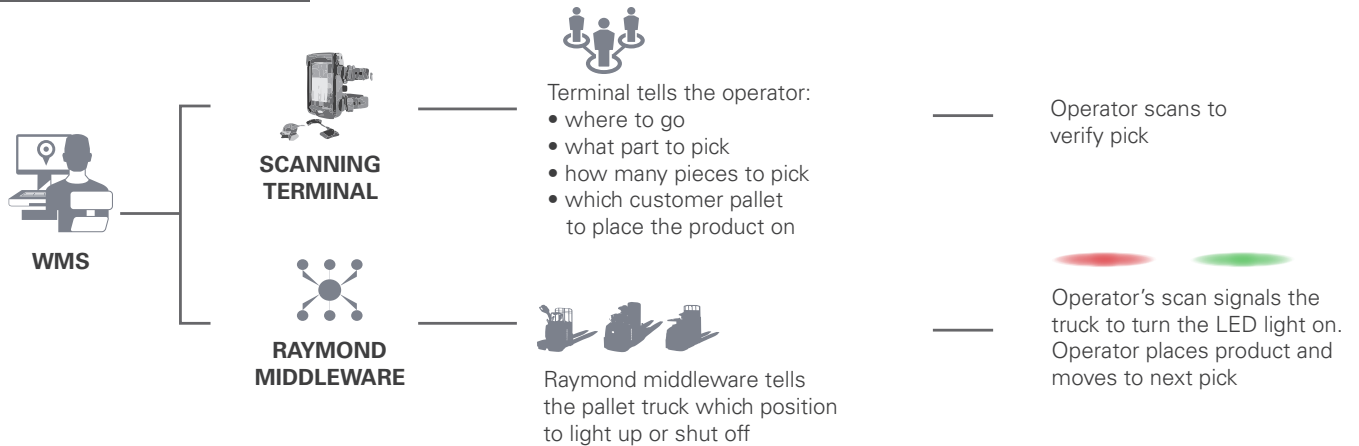

Raymond's experienced Consultants, Application Engineers, and Automation Systems Experts are here to simplify the integration and implementation of Pick2Pallet LED Light System. We take the time to thoroughly analyze your facility and develop customized solutions that seamlessly integrate Pick2Pallet LED Light System with your Warehouse Management System (WMS), iWAREHOUSE® telematics, and voice and scanning systems.

HOW IT WORKS:

FOR VOICE-DIRECTED SYSTEMS:

FOR BARCODE SCANNING SYSTEMS:

PERFORMANCE SPECIFICATIONS

- + Available on pallet truck models (new or retrofit): 8410, 8510, 8720
- + LED life expectancy: +20,000 hours*
- + IP65 protection for reliable performance in wet and cold storage applications

IDEAL APPLICATIONS

- + Wholesale Distribution
- + Food, Grocery, Beverage
- + Retail
- + Manufacturing

ASSESSING YOUR NEEDS

As your trusted partner, we assess your applications before recommending solutions—ensuring we provide the right fit for your business.

Are you utilizing voice and/or scanning today?

How are your pick-lists processed?

Are you splitting or zoning your pallets?

What is your ideal state for LED illumination?
